

**WRS  
THREATENED!**

Want to find out more about the **Wisconsin Retirement System (WRS)** and the threat it is under from the Walker administration and his allies?

Under the budget bill, the legislature passed provisions limiting participation in the WRS by changing vesting rules and increasing the full-time equivalency or hours worked to be eligible for a pension. The budget bill also requires a study of the WRS that focuses on two things - changing the system to allow 401K type plans and to let employees opt out of the system altogether. The implementation of either of these plans will destabilize the WRS.

CAUS-North and CAUS South are co-sponsoring a presentation for you to find out more about this threat and what you can do about it.

## **WRS WORKSHOP**

Presented by Betsy Kippers,  
WEAC Vice President

Tuesday, February 28, 2012

6:30 p.m.

Sheraton Hotel  
706 John Nolen Drive  
Madison

RSVP By Friday, February 24
